

# MEMO

TO: Ranier City Council  
FROM: Ben VanTassel, ARDC  
RE: September 8, 2008 Summary

---

ARDC Staff facilitated the Community Planning Session of the Ranier Council meetings on September 8, 2008. A brief overview of the Visioning Session was presented. ARDC Staff then reviewed the planning process and what the next steps of the process will entail.

Then the council was asked to review the short vision statements that were collected at the Visioning Session. ARDC presented a draft vision statement for the council to review and forward changes or additions to ARDC.

ARDC then lead the council through a discussion of the assets and concerns that were developed Visioning Session. The assets and concerns were organized into themes; recreation, community, city organization and infrastructure, and economics. The council went through the list and discussed the concerns listed, and began to discuss possible solutions to the concerns.

Following the meeting, ARDC will begin to organize the solutions and drafting recommendations for addressing the concerns.
